From The President

May Flowers!

Grand Central District has it's own flowers blooming this summer and we are just planting our seeds! While being President over the past year and a half along with a great team~ our Board of Directors, I have seen Grand Central District grow in so many ways. Through our many Press Releases, intermixed projects with other neighborhoods, city meetings, Eckerd College programs to help GCD, and our Co-Op ads, we have helped seam relationships with our City to bring our neighborhood into a new light. With all of these components, along with many new ones, we hope to leap forward even more through the end of this year. This will help us as well as our neighbor - Historic Kenwood. A positive outlook and approach is what we strive for every month.

Currently we are working on a grant to help us grow our Sunday market into a fresh produce market. We are in the beginning stages and are hopeful as accomplish this, so please be patient with us.

We are starting to couple our Peddler's Market on Sundays with different charities. We had "HOT" (Helping Our Troops) join us in April and in May we have Bake for Hope, which gives all of the funds raised to the Susan G. Komen for the Cure, and the Florida Blood Mobile.

In June we have our 2nd annual Hogs n Dogs event, along with our Peddlers Market every Sunday. We are always looking for bands, soloists & Karaoke Jockeys to play and have some fun.

It's all about mixing it up in our eclectic urban village. We hope you get a chance to come out & stroll on a Sunday.

Thank you for supporting our "local" shops!

Make a Difference,
Mona Burrows,
President

TIP:

Did you know that 200,000 US households are energy-independent? These homes-referred to as "off the grid" are not connected to power lines or traditional water, sewer or gas supplies. You may not be able to go "off the grid", but there are many things that you can do to save money on bills.

- Change your light bulbs. Compact fluorescent light bulbs take up less power than a conventional light bulb. Changing to compact fluorescent light bulbs is a great way to go green at home. It's also a nice way to save some money on your electric bill.

- Run the washer, dryer and dishwasher only with full loads. You reduce both electricity and water usage by only running these appliances when necessary.

- Install a low-flow shower head. The newest models still produce strong water pressure while using much less water.

GCDA MEETINGS AND EVENTS CALENDAR

Design, Organization & Promotions

Hospice Center, 3050 1st Ave South
First Tuesday of Every Month-5:00pm
May 5, June 2, July 7

Economic Development

TRIVIA ANSWER

Starfire grew up on Tamaran, the youngest
daughter of the planet's rulers. In order to ward
off an alien invasion that threatened to destroy the
entire planet, her family gave her up as a "peace
offering" to the powerful invaders who took her
away and enslaved her. Eventually, Starfire es-
caped her captors and fled to Earth where she
joined the Teen Titans.
